Card Flourishing

By M. B. Moore.

To accompany the Madarasz course in Card Writing THE JOURNAL has procured the services of M. B. Moore, Morgan, Ky., to prepare a series of Card Flourishes. He stands unequalled in America today in this particular field. This course is also designed for the expert penman. The amateur will find it a little too advanced, although by a careful study of the main strokes and noting how the filling in is done one should be able to derive profit from practicing the copies. One hundred copies of each flourish should be made and the best one sent to this office. Especially creditable products will appear in the Penman's Exchange.
